Calculate if you are going to reach your retirement goal  
Allows you to view different scenarios

## YOU CAN SETUP DIFFERENT CATEGORIES, FOR EXAMPLE:

Management, Admin Staff, General workers and Drivers can get different benefits/contributions depending on what category they fall in.

Contributions can depend on years of service e.g. 1 – 5 years the employer can contribute 7.5%, 5 – 10 years the employer can contribute 10% etc.

If members have dependants or not (If they don't have dependants they don't need such high risk cover and more money can be invested).

**We review the risk benefits every year with our risk provider pool (8 risk providers).**

**IF YOU ARE INTERESTED IN THIS SOLUTION PLEASE CONTACT ACRAVEST**
